This degree is offered to candidates who have achieved distinction in public performance and who demonstrate ability to execute research and scholarly study.

### I. Credit Requirements

- A. The Doctor of Music degree requires a minimum of 94 earned graduate semester credits beyond the baccalaureate degree.
- B. For students holding a master's degree in music from another accredited institution (with at least 30 earned credits):
  1. A minimum of 64 graduate credits must be earned at FSU (at least 40 credits of coursework plus 24 credits of recitals and treatise).
  2. This requirement is applicable regardless of the total number of credits earned in the previous master's degree program, even if the total exceeds 30 credits.
- C. For students holding a master's degree in music from FSU:
  1. All graduate credits earned in the master's program, including those exceeding 30 credits, will be applicable towards the 94-credit requirement (excluding any remedial courses).

### II. Diagnostic Examination

The Area may or may not require this examination. Please consult with the Area Coordinator and/or Major Professor to determine if any diagnostic assessments will be required.

### III. Language Requirements

Languages and other proficiencies will be determined by the Major Professor in consultation with the student.

### IV. Residence/Scholarly Engagement Requirement

- A. The purpose of the Scholarly Engagement requirement is to ensure that doctoral students are active participants in the scholarly community. To meet the Scholarly Engagement requirement, doctoral students should interact with faculty and peers in ways that may include enrolling in courses; attending seminars, symposia, and conferences; engaging in collaborative study and research beyond the university campus; and utilizing the library, laboratories, and other facilities provided by the University. The goal is to prepare students to be scholars who can independently acquire, evaluate, and extend knowledge, as well as develop themselves as

effective communicators and disseminators of knowledge.

B. College of Music doctoral students can satisfy the Scholarly Engagement requirement through one of two options:

1. Complete 24 graduate credit hours (5000-level or above) within any consecutive 12-month calendar period; OR
2. Complete a minimum of 18 graduate credit hours (5000-level or above) within any consecutive 12-month calendar period, AND submit to their Area Coordinator and/or Major Professor evidence of additional scholarly engagement activities deemed equivalent to 6 graduate credit hours of coursework by the Coordinator/Professor. Such professional activities may include attending or presenting/performing in seminars, masterclasses, workshops, symposia, conferences and festivals; engaging in creative activities, research and collaborative study beyond the university campus; utilizing the library, laboratories and other facilities provided by the University; or other scholarly or creative activities as determined by area faculty and approved by the area coordinator and by the Director of Graduate Studies for the College of Music. In effect, doctoral students in the College of Music must complete 24 Scholarly Engagement “points” in a 12-month period. Please note, however, that only graduate academic credits earned at FSU will be applicable towards the total degree requirements.

With regards to the treatise, DM students may select one of two approaches:

- i. The student completes an original research document consisting of a minimum of 12,000 words (not including supplementary matter such as title page, table of contents, lists of figures, bibliography and appendices).
  - ii. The student completes an original research document consisting of a minimum of 6,000 words (not including supplementary matter such as title page, table of contents, lists of figures, bibliography and appendices). In addition, the student performs an additional Lecture Recital (MVB/P/W 6987) for 1 to 4 credits. Typically, this second lecture recital is related to the content of the written document.
- b. All treatise submission requirements of the FSU Graduate School and all University deadlines are applicable to both of the options above.
  - c. Following submission of the completed treatise to the supervisory committee, an oral defense with the committee is required. The treatise defense is normally held after completion of all recitals and submission of the treatise to the advisory committee. Students must register for MUS 8985 Treatise Defense during the semester in which the defense is conducted (normally the semester of graduation).
