Bachelor of Music – Music Therapy

Students are responsible for making successful academic progress and completing their degree programs. To avoid delays, it is imperative that students attend advising sessions regularly and understand degree requirements.

The FSU undergraduate degree program in music therapy is competency based; therefore, requisite skills and therapeutic personality characteristics must be proficiently demonstrated at each level: at admission, during course components and community practica, during pre-internship, and during internship.

The majority of music therapy courses require community practica in sites providing clinical services to vulnerable persons. Practica agencies require medical histories, fingerprinting, background checks, and drug analyses to screen students prior to participation in their sites and prior to interactions with their clients. Failure to pass such screening will result in immediate dismissal from the impacted courses, and possibly from the music therapy major. Additionally, students will be required to maintain liability insurance for classes with clinical practica.

To ensure safety of students and community populations, students in the Music Therapy Program are required at all times to maintain programmatic, legal, professional, and ethical conduct and standards and to demonstrate sound judgment in interpersonal relationships.

These requirements include, but are not limited to:

- Demonstration of effective communication skills and ability to develop appropriate interpersonal relationships with persons of all ages by responding to others' individual needs. This includes verbal and nonverbal skills such as directing, questioning, listening, eye contact, facial affect, managing behavior of large groups of clients, maintaining positive, professional relationships with faculty, staff, and other students, etc.
- Demonstration of proficient clinical musicianship skills on guitar, piano, voice and other instruments as required (e.g., percussion), as well as memorization of repertoire for persons of varied cultural backgrounds and ages.
- Demonstration of therapeutic values including nonjudgmental perception of others' beliefs and values, social concern, empathy, and congruence in relationships.
- Demonstration of cognitive ability to grasp, relate, transfer, synthesize, and apply academic knowledge in the field of music therapy
- Demonstration of personal and professional attributes of maturity, dependability, reasoned approach to problem solving, ability to perceive and adjust to situational realities, ability to cope with stress, and maintenance of healthy, balanced lifestyle.

Students whose personal issues impede their ability to contribute to therapeutic change in clients or whose personal conduct does not meet minimal standards for perceived safety of vulnerable clients in clinical settings will be dismissed from the Music Therapy Program at any point in their program of studies. Students with personal issues that prevent demonstration of these basic competencies will be counseled to select other majors.

Music Studies

Music History

Students must complete all 4 courses of the music history sequence which includes:

MUH 2512 (Music in World Cultures)

MUL 2110 (Survey of Music Literature)

MUH 3211 (Survey of Music History-Antiquity to 1750)

MUH 3212 (Survey of Music History-1750 to Present)

These courses must be taken in order, but do not have to be taken back-to-back. Students must complete MUT 1112 (Music Theory II) before taking MUL 2110.

With permission from the Assistant Dean of Undergraduate Studies, students may substitute MUH 2051 (Music in World Cultures for Non-Majors) for MUH 2512.

Applied Music

Applied music lessons (private lessons) with a professor or graduate student on the student's primary instrument must be taken every fall and spring until degree requirements are satisfied. Students may be required to perform juries or final examinations as determined by their studio.

A total of 19 credits of applied music are required. 2 years of principal lessons with passing juries must be completed (registration in principal applied lessons required each term until the sophomore jury has been passed). Class Piano, Class Voice, and Class Guitar comprise 7 credits. Remaining credits required (4) can be completed with continuing principal lessons, beginning secondary lessons or enrollment in dance classes.

Piano principals are exempt from MVK 1111, 2121, 3131 (Class Piano I, II, III).

Guitar principals are exempt from MVS 1116, 2126 (Beginning/Intermediate Class Guitar).

Voice principals are exempt from MVV 1111 (Class Voice).

Students who are exempt from or test out of Class Piano, Class Voice, or Class Guitar courses must replace those credits with applied music electives. Elective courses are defined as any course not already required by the major.

Ensembles

Students must earn a minimum of 7 ensemble credits. Ensembles taken for 0 credit do not satisfy any of the 7 required ensemble credits. Each ensemble has 2 interchangeable course codes: MUN 2__ and MUN 4__, though 3 ensembles should be taken at the 4000 level.

Students must take at least 1 semester of MUN 4803 (World Music Ensemble).

Students receiving music scholarships must participate in an approved ensemble for their instrument or voice each fall/spring semester as listed on their music scholarship contract. Scholarship compliant ensembles may be taken for 0 credit and still fulfill scholarship requirements.

Chamber Music

- Woodwind and Brass principals register for MUN 2460/4463 (Chamber Music) their **1st spring** and **2nd fall** semesters.
- String principals register for MUN 2460/4463 (Chamber Music) their **1st fall** and **2nd fall** semesters.
- Percussion principals register for MUN 2140/4443 (Percussion Ensemble) for 2 semesters.
- Piano principals register for MUN 2510/4513 (Piano Vocal/Instrumental Accompanying) for 2 semesters.
